Work Experience:

Austin Camera & Imaging - Austin, TX
Retail Salesperson   August 2019 - Present
- Responsible for front of store upkeep that has resulted in a cleaner store overall.
- Responsible for overseeing inventory stock and keeping track of back-stock and when to re-order, so that the manager could focus on more administrative duties.
- In charge of video VHS, miniDV, etc. transfers to DVD, which led to being able to do more VHS transfers in-house.

Sherman Grinberg Film Library - Chatsworth, CA
Assistant Archivist   September 2018 - June 2019
- Performed proper procedure to care for and handle nitrate and acetate film reels.
- Prepared and catalogued 3-4 1000 ft "scan reels" of various newsreel stories for scanning.
- Utilized a Lasergraphics 'Director" 35mm film scanner to scan newsreel stories into our database.
- Researched the subject matter of film reels to decide how best to market the material for licensing.
- Responsible for duplicating archived collections from legacy video formats (Betacam SP and Umatic) to digital to be sent to clients.
- Established working relationships with known media and entertainment companies for distribution of licensed footage.

Special Skills

- HTML5
- CSS3
- Javascript
- ReactJS
- JQuery
- Node.js
- Express.js
- Bootstrap
- MySQL
- MongoDB
- Java

Projects

My Virtual Library
- Collaborated with a team to design a web application that utilizes Node.js, Express.js, and MySQL relational databases to store user login information along with a collection of books sorted into "Queue" and "Library" lists.
- https://virtual-library-2.herokuapp.com/homepage

To Cook or Not to Cook
- Collaborated with a team to design a web-page that allows a user to search for recipes and nearby restaurants based on search keywords by utilizing Yelp, and Spoonacular APIs.
- https://sircrouchalot.github.io/To-Cook-Or-Not-To-Cook/

Note Taking Application
- Created the backend of a note taking app with persistent notes using Express.js, Node.js, and MySQL
